Proposal : This Scoping Opinion Request relates to the proposed development of up to 470 dwellings on land at Curbridge Downs Farm, Witney.
Observations : Witney Town Council has reviewed the Scoping Opinion Request for the development of 470 dwellings and acknowledges the need for housing delivery in West Oxfordshire. The Council also recognises the potential impact this development could have on Witney, as a neighbouring parish and the primary service centre for the development.
Members are concerned that several key issues are recommended to be scoped out of detailed assessment in the EIA, as outlined in Table 18.1 of the EIA Scoping Opinion Request (Summary of proposed EIA scope, including elements of proposed environmental topics to be scoped out of detailed assessment). The Council requests that the following points be fully investigated and addressed before any progression of the development.

Flood Risk, Drainage & Water Environment

There are concerns regarding the adequacy of the current drainage systems and the potential impact of the development on these systems. Specifically, Members have raised the issue of increased surface water runoff and the risk of exacerbating drainage problems on Dry Lane, Crawley and Bridget Street, Witney. It is imperative that a detailed drainage strategy is provided to demonstrate that the development will not negatively impact local infrastructure or increase flooding risks in the surrounding area. Standing water and flooding have been highlighted as significant concerns. Members request that the development plan thoroughly addresses how water runoff will be managed and that measures to prevent further standing water issues, which could worsen flooding in the area, are included. A comprehensive assessment of the potential flood risk, including an updated flood risk report, should be provided as part of the EIA.

Ground Conditions and Contamination

Members have expressed concerns regarding the potential for contamination, particularly following flooding events. Given the site's history and vulnerability to flooding, there is a need to assess how floodwaters might interact with the land and any associated contamination risks. A detailed flood risk assessment, including modelling and an environmental impact study, should be undertaken to evaluate this risk fully.

Additionally, there are concerns about the land's quality due to its previous agricultural use. The site has historically been used for agricultural purposes, which may have led to contamination from the use of pesticides, fertilizers, chemicals, and other industrial activities. Members are particularly concerned about the potential for soil contamination and its impact on the health and safety of future occupants. A comprehensive land quality survey should be conducted to assess any contamination, and if identified, appropriate remediation measures should be proposed.

Built Heritage and Archaeology

The Council acknowledges that the development site includes a historic barn. Therefore, scoping should be undertaken to assess and address the potential impacts of the proposed development on this important historical and cultural asset.

Socio Economics

Given the prospect of imminent local government devolution, this should be considered as part of any parish boundary changes that may result from an accompanying community governance review. The socio-economic impact of the development, including its potential effects on local health, quality of life, social cohesion, and well-being, should be assessed. In addition, the impact on access to essential services such as healthcare, education, and housing should be examined, with an evaluation of whether existing infrastructure and services can accommodate the anticipated demand.

In light of the concerns raised, Members strongly request that the applicant undertakes a comprehensive investigation into these matters as part of the EIA, with full consideration of the potential impacts on both land quality and local infrastructure. It is vital that these investigations are conducted in line with current environmental and planning policies to ensure a safe, sustainable, and well-planned development.

The Committee received a verbal update from the Biodiversity & Green Spaces Officer (B&GSO).

Members heard that the B&GSO was pleased to see the establishment of a dedicated Committee which he hoped would help to reinforce the work which had resulted in the award reorganisations the Council had received, these were in respect of the Lake & Country Park and further lead to greater opportunities for grant funding applications and for an application in early 2026 for local wildlife site status.

He updated the Committee regarding his and the newly promoted Park Ranger's recent progress and activity which included water testing, a furniture review, increase of noticeboard and information boards across the sites, greater volunteer interest, work to improve over 700 metres of pathway as well as having gained permission to raise pathways to reduce flooding risks.

The B&GSO responded to Members' questions regarding the results of the bank stabilisation work already carried out and that which was planned for the future, action taken and plans for the introduction of wildflower sites across the town, and ongoing water testing at the convergence of Colwell Brook and lake.

The offer of a walk with the B&SGO and Park Ranger was offered, Members agreed that this should be extended to all Councillors ideally to take place ahead of the Witney Carnival on 9th July so that Members were well informed.

In response to a Member's question regarding the promotion of schemes to benefit the community, the Deputy Town Clerk reminded the Committee of its remit and that as a Town Council the resources were limited however there was nothing stopping the Council promoting a wide scope of District, County and Government lead schemes to Witney residents and businesses as highlighted in Phase 3 & 4 of the roadmap provided by the C&EO.

The Chair raised the idea of hosting an event in the Council's buildings to facilitate and bring together community and support organisations in order to help educate and promote schemes and grant schemes that may be available.

PR265 **WITNEY BASKETBALL**

With the permission of the Chair, this item was moved up the agenda so the members of public could hear the discussion and outcome.

The Committee received and considered the report of the Deputy Town Clerk as to the current position of the provision for Basketball in Witney. Members had earlier heard from the members of the Witney Wolves Basketball Club of their own lived experiences.

It was clear to the Committee that the available basketball facilities were either of poor standard or non-existent, with particular issues around access to an acceptable indoor court, notably Windrush Leisure Centre. This resulted in the club currently having to play at Carterton leisure centre which came at a significant higher hire cost as their regular indoor court at Wood Green School was unavailable at times for example at exam periods. The Club had also had to host games and training sessions across multiple locations to satisfy the desire of their 60-80 players.

The Town Clerk confirmed that following an earlier exploratory meeting with the club held in April 2025, the Town Council had passed information to West Oxfordshire District Council (WODC), the club thanked the Town Council for this and reported that WODC had been in contact and a time to meet was being arranged.

Members also discussed the various ways it could help raise the profile and assistance to help improve the facilities, including the court, colloquially known as "The Cage" situated behind the Oxfordshire County Council Family Centre on Witan Way, which provided a centrally located outdoor court. It was thought that this area was owned and under the responsibility of OCC however attempts by the club to enter discussions had failed. It was agreed that Officers would look to obtain confirmation and enter discussions as to the potential for improvement to be made.

Other ideas to provide support were to consider the inclusion of basketball courts/hoops in the design of multi-use games areas, financial support for summer holiday youth sessions, integration with The Station detached youth provision, collaborations with Witney Hockey Club and use of the WODC Spacehive fundraising scheme.

Recommended:

1. That, the report be noted and,

2. That, Officers establish the ownership of the outdoor court on Witan Way and,
3. That, Officers explore options to support the promotion and improve the provision of Basketball in Witney.

PR266 COMMITTEE TERMS OF REFERENCE

Following the discussions regarding the provision for Basketball in Witney it was agreed that an objective be added.

- (ii) Reviewing existing Witney Town Council-owned recreational facilities and planned projects to assess and integrate provision for basketball where appropriate.

In response to a Member's query regarding the capacity of Officers to manage and deliver what was a significant portfolio of projects, the Head of Estates & Operations confirmed the team were ambitious and looking forward to bringing about the completion of the projects for the town.

Resolved:

1. That, an objective be added to support the development of basketball provision in Witney by:

PR268 LEYS CRICKET UPDATE

The Committee received and considered the report of the Operations Manager along with a verbal explanation from the Head of Estates & Operations (HE&O) which related to West Witney Sports & Social Club's cricket provision.

The HE&O explained that the table of costs was comprehensive however, as noted in the report, it did not include costs of equipment along with the proportion of costs that was spent during the football season. These cost calculations would continue to be worked on, and updated versions covering all costings would be made available to Members which would cover both Cricket and Football.

He also updated Members on the progress of the agreement with Swifts CC and confirmed it was hoped that the final agreement would be reached and signed in the coming weeks.

PR269 UPDATE ON CRICKET PROVISION AT THE LEYS RECREATION GROUND

The Committee received a verbal update from the Town Clerk/CEO in respect of the progression of discussions with the Oxfordshire Cricket Board and Henry Box School regarding the desire for an artificial wicket at The Leys Recreation Ground.

Oxfordshire Cricket Board had confirmed ongoing interest in reintroducing cricket at The Leys. This included a renewed expression of interest from Henry Box school in using a proposed artificial pitch on the field adjacent to their premises, and general support from the OCB for facilitating cricket activities—including All Stars and women's sessions—once construction works at Courtside are completed. The OCB had emphasised that, due to the ongoing construction and the lack of available changing facilities, it had not been feasible to resume cricket activities during the current summer season.

Resolved:

That, the verbal update be noted.

*During the following item:
Cllr J Treloar left the meeting at 7:13pm rejoining at 7:16pm*

PR270 MAJOR STRATEGIC PROJECTS

The Committee received and considered the report of the Project Officer regarding the major projects within the Town along with a verbal update from the Head of Estates & Operations (HE&O).

The Leys Masterplan

Members were concerned to hear of a further delay to the delivery of the renovations and the proposed period of closure of the Skatepark however, they appreciated Officers actions to ensure that Courtside Hubs continued to provide regular clear communication and updates.

The Committee welcomed that the Splashpark was to be delivered ahead of time as had the skatepark, further adding to their confidence in the new operations and projects team. Members remarked on the positive comments they had received from residents who had closely watched the progress and looked forward to the official opening by the Mayor prior to the half term school holidays.

Raleigh Crescent Multi Use Games Area (MUGA)

Members received an illustration which depicted the potential for the new MUGA and were reminded of the need for confidentiality due to the commercial sensitivity of the document.

They heard progress had been slower that Officers would like to have seen, due to the number of projects West Oxfordshire District Council had in flight. Officers explained that due to the Section106 funds held by WODC, it had to be included in the tender process however, it was thought that once the tender was awarded it could move with more pace under the project management of the Town Council.

West Witney – Portaloo

The Town Clerk/CEO provided an update on the grant made by the Council to facilitate the use of toilets within the West Witney Sports & Social Club by parkrun. An issue had arisen regarding parkrun gaining access as was believed to be agreed. The Town Clerk/CEO would be investigating further with the Social Club to resolve.

Resolved:

That, the report and verbal updates be noted.

PR272 **PROJECT UPDATE**

The Committee received and considered the report of the Project Officer.

The Head of Estates & Operation answered Members' questions regarding welfare provisions, insulation and cycle storage provision.

The report had outlined the building of the new works depot would be over one storey, rather than two storeys and would provide a saving of approximately £10,000 - £20,000 however, Members agreed that the additional storey would provide additional storage space and future proof the Council given the proposed changes to local government responsibilities with anticipated devolution.

Members were unanimously in agreement with proceeding with the option of building the new work depot with two storeys.

Recommended:

1. That, the report be noted and,
2. That, Officers proceed with plans for construction of a new two storey works depot.

PR273 **FINANCE REPORT**

Members heard that the Council would be taking professional advice ahead of progressing further to confirm the plan. The Committee was unanimous in support.

2. That, the Council engage professional services to advise on whether to opt-to-tax the West Witney Clubhouse and,

The Committee reconvened.

H284 **LAKESIDE FLOODING OPTIONS**

With the permission of the Chair, the item was moved up the agenda so that the members of public present could hear the discussion and outcome.

The Committee received and considered the report of the Operations Manager as well as hearing earlier the words of the Site Representative for Lakeside Allotments and the two Members of WWA-South who were present.

Following on, Members discussed the specifics of the proposals with questions regarding the layout, ditch orientation and flow levels of the various water courses being answered by the Operations Manager.

Although the Committee sympathised with the allotment holders' frustration about flooding, potentially involving sewage water, it was mutually agreed by all present that the allotments were situated on a flood plain. There was no simple or inexpensive solution to the issue which had appeared to worsen in recent years. Some plots were unusable in the winter, and the viability of the soil and the longevity of any mitigation was unknown.

The Committee was unanimous in agreement to decline both recommendations in the report in favour of alternative proposals.

It was therefore proposed by Cllr A Bailey and seconded by Cllr J Treloar that the Council developed a strategy to engage with Thames Water and other interested parties to review the

issues being experienced. In particular a request be made to Windrush Against Sewage Pollution to provide the historical flow rates of Colwell Brook. Members were unanimous in support.

Additionally, Members further agreed to review an earlier topographical survey regarding hydrology movement. If any further survey work was found to be needed, then Officers should review and report back to the Committee.

Recommended:

1. That, the report and verbal contributions be noted and,
2. That, a strategy be developed to engage with Thames Water and interested parties and,
3. That, Officers investigate any additional hydrology survey work that may be required.

The Members of the public left the meeting along with the Operations Manager at 6:45pm

H285 **THE EQUALITY & HUMAN RIGHTS COMMISSION (EHRC) CONSULTATION - TOILET PROVISION IN PUBLIC HALLS**

With the permission of the Chair, the item was moved up the agenda.

The Committee had been asked to note the intention that EHRC were imminently to issue a public consultation following the Supreme Court ruling on the definition of "sex" under the Equality Act 2010 and to consider any implications for the provision of single-sex and staff toilet facilities at the Corn Exchange and other public halls.

A Member raised that these changes were mandatory for public bodies however, felt that Witney Town Council should highlight its concerns with regards to the practicalities of introducing changes.

The Committee was concerned that it was overreach to include toilet provisions in the guidance however, a solution to change the use of the disabled toilet would meet the requirements of the court ruling but it was a person's right to choose their sex, and it should not be viewed as a disability.

Cllr G Meadows proposed, and Cllr R Smith seconded that the Council consult with LGBTQ & disabled communities, who would be affected by the additional use of the designated toilet, prior to submission of a response from Witney Town Council by the Mayor, Leader of the Council, Cllr Meadows and Town Clerk. The Committee were unanimous in agreement with the proposal.

Recommended:

1. That, the Council enter a submission to highlight their concerns the formation of which be delegated to the Mayor, Leader, Cllr Meadows and the Town Clerk; and
2. That, the Council consult with groups prior to help inform its response.

Cllr A Bailey left the meeting at 7:05pm

Members agreed that West Oxfordshire District Council be contacted in respect of the Welcome to Witney guide so that the Town Council could help promote the work being carried out by them as part of their wayfinding project.

The Committee considered the press coverage and asked that Officers ensure that press releases were issued whenever possible; Members were disappointed to hear that even when provided with a press release this had not necessary lead to publication as had been the case with the 80th VE Anniversary celebrations and the opening of the refurbished Splashpark, both of which would have illustrated and educated residents on the work of the Town Council.

Members were informed that this item had been agreed by the Council in 2024 as part of a broader report on riparian watercourse works for which it held responsibility in Witney. Although the area in question fell outside the Council's formal remit, it was agreed that the Council should set a positive example in riparian management by carrying out desilting work near the bridge, in the interest of the wider community.

Persistent high-water levels throughout 2024 had delayed the project, and the method of desilting now proposed differed from the original plan. Further information was still required, but current thinking suggested the revised approach would involve a road closure and incur higher costs than initially anticipated.

The Committee welcomed the renewed momentum behind the project and remained fully supportive of the scheme. It was agreed that all opportunities to secure funding for both the project itself and the potential road closure should be thoroughly explored by officers.

Resolved:

1. That, the report be noted and;

In addition, the RFO tabled an addendum to the report at the meeting concerning the banking mandate for the Council’s CCLA investments. A correspondent for the investments was required along with Councillor signatories for payments.

FULL COUNCIL

Agenda Item: Health and Safety Report
Meeting Date: Monday 23 June 2025
Contact Officer: Compliance and Environment Officer

The purpose of this report to update Councillors on Health and Safety across the services and facilities provided by the Council.

Background

It is the policy of Witney Town Council to comply with our obligations under the Health and Safety at Work Act 1974 (as amended), the Management of Health and Safety at Work Regulations 1999 (as amended) and other supporting legislation concerning Health and Safety. At all times we endeavour to provide and maintain a healthy and safe working environment for our employees, and to protect the health and safety of all visitors; including contractors, temporary workers and members of the public, who might be affected by our operations.

Current Situation

In accordance with the approved Witney Town Council Health and Safety Policy Statement 2024, Members are reminded that they have a collective responsibility for the Health & Safety of the organisation.

GH Safety Ltd were appointed in 2024 to implement a Health & Safety Compliance Audit to ensure that key aspects of the Council's undertaking are managed in a proactive way in which all reasonable and practical steps have been taken to manage risk to persons under the Council's duty of care.

Their findings reported risk is managed to a high standard; the leadership representatives of the Town Clerk and Head of Estates and Operations fully understand their obligations in creating a positive safety culture where tasks are assigned and understood at all levels within the Council.

Departmental managers remain accountable for compliance within their areas of responsibility which is overseen by the Compliance and Environment officer.

The key objectives are to ensure that the Council operates in a lawful manner in respect of health and safety compliance with its service delivery and functions, identifying and advising management and Council of possible risks and finding solutions to mitigate such risks.

Impact Assessments

The Town Council has a duty to consider the effects of its decisions, functions and activities on equality, biodiversity, and crime & disorder. Consideration should also be given to effects on the environment, given the Council's Climate Emergency declaration in 2019.

- a) Ensuring equality in health and safety measures so that all individuals, regardless of their background, job role, or personal circumstances, have equal access to a safe and healthy environment.
- b) Biodiversity plays a crucial role in health and safety measures, influencing public health, workplace safety, and overall environmental well-being.

- c) Crime and disorder pose risks to health and safety in workplaces, public spaces, and healthcare settings. Issues such as violence, theft, and vandalism can compromise safety measures.
- d) The Environment & Climate Emergency is a critical issue that directly impacts health and safety measures in workplaces and communities. It is important to integrate environmental and climate considerations into the council's health and safety policies to protect workers, reduce environmental hazards, and build resilience against climate-related risks.

Risk

In decision making Councillors should give consideration to any risks to the Council and any action it can take to limit or negate its liability.

All accidents and incidents are properly documented and investigated with measures put in place in order to prevent reoccurrences.

Social Value

Social value is the positive change the Council creates in the local community within which it operates.

There are the broader benefits that the Council generates for employees and the public embedding a safer, healthier, and more productive workforce.

From: Oxfordshire County Council **On Behalf Of** Part Night Lighting

Subject: Part-Night Lighting Public Consultation is now live - We look forward to getting your consultation responses

Good Morning,

We are writing to let you know that the public consultation on the proposed Part-Night Lighting Implementation Framework is now live on 'Let's Talk Oxfordshire' [Part-night lighting and street lighting policy | Let's Talk Oxfordshire](#)

The Consultation is running until midnight on Sunday 6th July.

What this consultation is about

This framework is about how part-night lighting could be implemented in Oxfordshire. It is not about whether part-night lighting is right for specific areas. In September 2025, the council's cabinet will decide whether or not to move forward with part-night lighting. If the decision is to proceed, we are proposing that towns, parishes or Oxford city wards apply for part-night lighting schemes in their areas and that a public consultation is carried out for each scheme.

About the framework

The draft part night lighting framework proposes to introduce part night lighting in Oxfordshire locations where:

- it is requested by the local town or parish council/meeting, or local governance authorities
- the part night lighting exemption criteria does not apply
- local residents have been consulted via a public consultation, as well as stakeholders like the police, night economy employers and community groups
- the part night lighting scheme is approved at Oxfordshire Council Council's Delegated Decision by Cabinet Member for Transport Management

Please can you share this consultation with your residents, local community and stakeholder groups and your Councillors. We very much want to hear back from Parish's and Town Council's on their views and comments on the proposed Part-Night Lighting Implementation Framework, as if approved, then Parish and Town Council's would be able apply for part-night lighting schemes in their areas.

Press information and the consultation documents are attached. Printed copies of the consultation are also available; You can request a paper copy of the consultation documents by emailing: partnightlighting@oxfordshire.gov.uk(External link) or call the county council's Customer Services Team on 01865 792422 or download it from this page. We will provide a Freepost address on the paper survey form for you to return your completed survey.

Any queries or questions, please let us know. We look forward to getting your consultation responses.

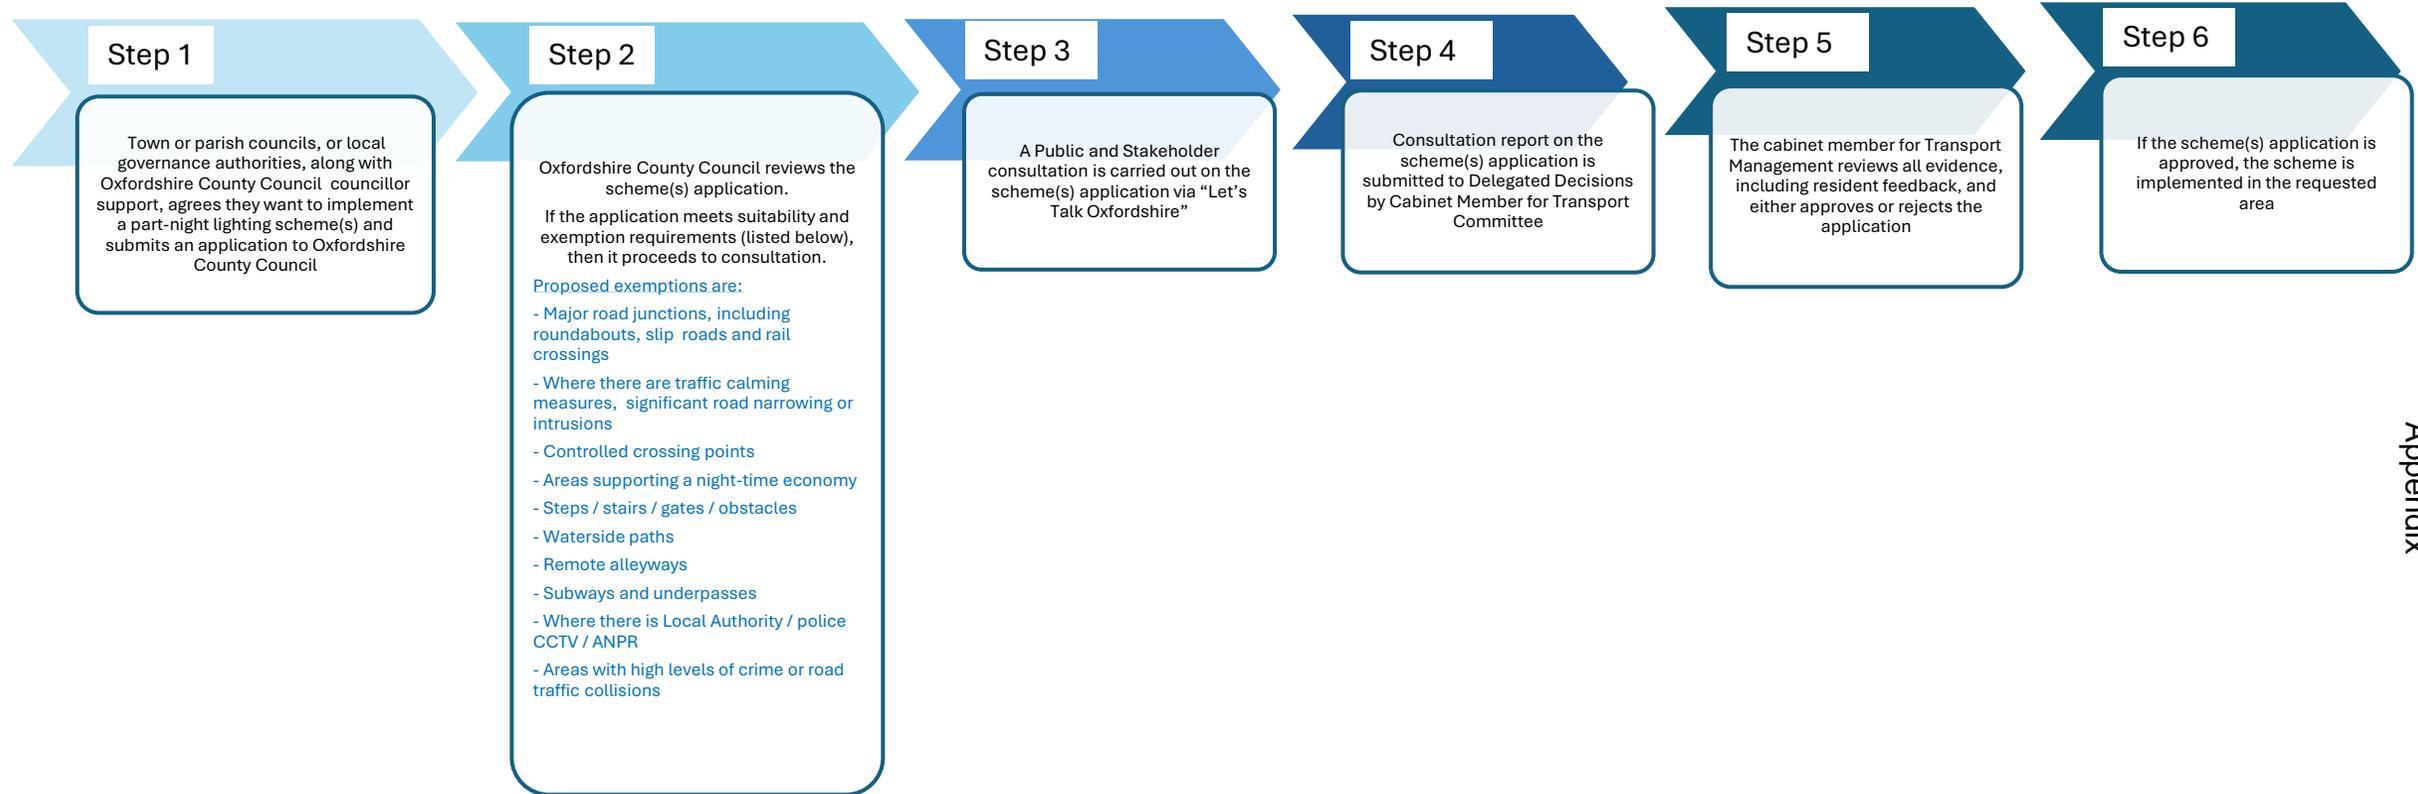

Kind regards,

Highways Maintenance and Road Safety Team, Oxfordshire County Council

Proposed Part-Night Lighting Implementation Framework

Part-Night Lighting – Frequently Asked Questions

1. What are the council's legal responsibilities for street lighting?

There is no legal requirement for local authorities in the UK to provide street lighting. However, where we provide street lighting on public highways (including roads and footways) we do have a responsibility to maintain it. This includes the county councils' streetlights, illuminated traffic signs and bollards on the public highway, but not lighting in private areas, private car parks or on new housing developments.

Not all streetlighting in Oxfordshire is the responsibility of the county council. Some parish and town councils have installed their own street lighting systems, and they are responsible for maintaining these.

2. What is part-night lighting?

Part-night lighting is an approach to dimming, or switching off, streetlighting in an area for part of the night. Over half of local authorities have introduced part-night lighting, with the first schemes being introduced in the 1970s. It is intended to be used at night during the hours when the fewest people are using the streets.

Part-night lighting is not the same as 'Dark Skies'. Dark Skies is a national initiative which aims to conserve night skies, reduce light pollution and increase awareness of the impacts of night light. It encourages responsible outdoor lighting practices and advocates for policies to protect natural night environments.

3. Will part-night lighting be compulsory?

No. Part-night lighting will only be implemented where it has been:

- requested by a town and parish council/meeting, or local governance authority
- supported by the area's County Councillor
- is suitable for part-night lighting and not subject to any of the exemptions outline in the framework
- subject to a public consultation to hear residents' and stakeholders' views
- approved at the council's Delegated Decisions by Cabinet Member for Transport Management meeting.

4. Why is the council proposing a part-night lighting framework?

Implementing part-night lighting can have several benefits, including:

Reducing carbon emissions:

Last year our street lighting generated over 2,420 tonnes of carbon emissions, around a third of the council's overall emissions and the largest contributor to them.

If lights are switched on for fewer hours, they will use less electricity and carbon emissions will be reduced. We estimate that part-night lighting could reduce energy consumption by over 5,000kWh per day, saving over 400 tonnes of carbon per year. This could also reduce annual spending on energy by over £400,000.

Reducing light pollution:

Reducing light pollution can boost nature recovery and biodiversity, as it creates an improved night-time environment for wildlife. This is especially true for encouraging nocturnal wildlife, such as moths, nighttime pollinators, some birds, and a wide range of invertebrates.

People can also benefit directly, with evidence linking reduced light pollution to better sleep patterns and the many health benefits that can go hand in hand with this.

5. Is part-night lighting definitely happening in Oxfordshire?

Yes and no.

Some places in Oxfordshire already have part-night lighting and our current street lighting policy allows for it. This consultation is asking for your views on our draft part-night lighting implementation framework, and is not about removing part-night lighting where it already exists.

But part night lighting is not definitely happening across the whole of Oxfordshire. In September 2025, the county council's cabinet will decide whether to go forward with this framework for implementing part-night lighting.

If cabinet approves the proposed framework, then town and parish councils/meetings, or local governance authorities, will be able to apply to the county council and request part-night lighting schemes for locations in their areas. Applications will also require the support of the area's

Oxfordshire County Council Councillor prior to submission. If the scheme application meets the part-night lighting criteria and following a public consultation on 'Let's talk Oxfordshire', the scheme will go forward for a decision on its approval at the council's Delegated Decisions by Cabinet Member for Transport Management meeting. The part-night lighting scheme would be implemented if approved at this meeting. An important part of deciding whether a location is suitable for a part-night lighting scheme will be listening to residents' views through a public consultation on each scheme.

6. How can people have their say on part-night lighting?

There will be several ways in which people can have, or have had, their say on part-night lighting:

- We have already worked with a wide range of stakeholders to develop this framework, including:
 - ✓ Community group representatives
 - ✓ Representatives of women and girls' groups
 - ✓ Emergency services and community safety teams
 - ✓ District, town and parish councillors
 - ✓ Universities and student unions
 - ✓ Employers of shift and nighttime economy workers
- This public consultation gives people the opportunity to share their views on the draft framework for part-night lighting. This is the proposal for how part night lighting could be implemented. The results will inform the cabinet decision in September 2025.
- If the cabinet decision is to move forward with part-night lighting, where the scheme meets the part night lighting criteria and does not include any exempt areas, and there are no technical reasons for part-night lighting not to be implemented in that location, a public consultation on 'Let's Talk Oxfordshire' would be held to make sure that local residents', local stakeholders' and community group voices are heard

7. Are you listening to vulnerable groups?

Yes.

To develop this draft framework we engaged with representatives from a range of communities, including people with disabilities, women and girls, LGBTQ+ people, people of different ages, and people from different ethnic and faith backgrounds. They helped us to understand the potential impacts of part-night lighting on their communities and explore how we could mitigate negative effects, and they are sharing this consultation with their communities to make sure that their voices are heard.

As part of this consultation we are asking some (optional) demographic questions, this will help us to understand the different perspectives of different groups.

An Equalities Impact Assessment (EIA) is being conducted to help us understand how part-night lighting could impact people with vulnerabilities and those with protected characteristics (as defined in the Equality Act 2010). As well as assessing the potential impacts, the EIA lists actions to be taken, timescales for them to be completed and monitoring arrangements. The EIA is considered a 'live document' and will be revisited over the course of the part night lighting programme.

8. Would part-night lighting be the same across the whole county?

No, part-night lighting is not a one size fits all approach. It could be implemented in different ways to meet the needs of different communities.

We are considering two 'standard' timeframes for part night lighting:

- Between 11:30 pm and 05:30 am in **rural** locations
- Between midnight and 05:30 am in **urban** locations

This is based on when the fewest people are using roads and paths, and when the last trains and buses run. These times could be tailored for an area's individual needs (e.g. if the last trains arrive after midnight). There may also be temporary variations for legitimate reasons such as public events or road works.

There will be some factors which may make a location unsuitable for a part-night lighting scheme, such as at road crossings, if there are high levels of crime or road incidents, or where there is public CCTV. One of the things we're asking for in this consultation is your views on the criteria that would make a location exempt from part-night lighting.

9. Why can't you just dim the lights, or use energy efficient lights?

Many of Oxfordshire's streetlights already use energy efficient lights and dimming technology. As lights have come to the end of their structural life they have been replaced with the newest technology, including LED lights. These new streetlights are already operating more efficiently, saving energy and requiring less maintenance.

10. What about the possible effects on crime and road safety?

We are working closely with Thames Valley Police and other relevant stakeholders, and they have helped to shape this draft framework.

While research has found that there is no significant evidence indicating part-night lighting increases crime rates, or road traffic incidents, we are proposing that locations at high risk of road traffic incidents, or with high levels of crime, be exempt and are not be eligible for part-night lighting schemes. Road traffic incidents and crime levels will also be monitored after a part-night lighting scheme is introduced and changes, including reversal, could be made to the scheme if needed.

Street lighting levels can also affect people's perceptions of safety. We are working with Thames Valley Police to ensure part-night lighting schemes do not take away from the need to deliver well-lit public spaces that provide a sense of safety. Working with Thames Valley Police, we will use data from Street Safe ([StreetSafe | Police.uk](https://www.street-safe.com/)) to help us understand how safe people feel in different locations. Street Safe allows you to report any safety concerns you may have about a particular area or location, even when no crime has taken place. You can share your safety concerns anonymously if you wish.

We also encourage you to use our 'Fix My Street' ([FixMyStreet](https://www.fixmystreet.com/)) online tool to report any highway or street safety issues.

11. How much would part-night lighting cost?

The total costs and savings of part-night lighting would depend on:

- how many local areas want to have part-night lighting, and

- the number and type of streetlights affected by each scheme

Each scheme would be different, as it would be tailored to the location's individual needs. This means that we can't give an accurate estimate of the costs at this time, but we can assure you that the cost of implementing part-night lighting would be managed through existing budgets.

To Town Councils; Parish Councils & Parish Meetings

10 April 2025

Dear Colleague,

I am writing to update you on some of the working going on across Thames Valley to cut crime and catch more criminals.

The headline figures are positive. Overall crimes is down across Thames Valley by nearly 2%. This means that there were more than 2,000 less crimes in the 12-months to February compared with the previous year (and more than 3,000 less crimes compared to the year before that). Some of the biggest reductions have been in residential burglary, knife crime and vehicle crime.

There is of course more work still to do. Although cutting crime remains the priority – ensuring less people become victims in the first place, it is of course vital that criminals are brought to justice. This is a commitment shared by the Chief Constable and I am encouraged that the number of “positive outcomes” (solved crimes in plain English) has increased by 14% in the last year.

These improvements can only continue if the public have confidence to report crime and other incidents to the police. We know that one of the barriers in the past has been the delays in answering 101 calls. I am pleased to report that the average time to answer calls from January to March this year has been well under three minutes. This is an area I will continue to focus on, and we are bringing in further improvements to both the online and telephone contact to make it easier to report issues to the police.

Our neighbourhood policing teams are vital to tackling crime locally as well as engaging with your community. Working with the Chief Constable over recent years we have doubled the number of neighbourhood officers across the Force and I have now been successful in bidding to the Government for funding to recruit an additional 68 neighbourhood police officers.

Although resources need to be focussed on cutting crime and catching criminals, reporting back to communities is important. The connection between local councils and local neighbourhood teams is an important part of that, both in terms of representing community concerns to the police and in sharing the activity of what the police are doing to make our communities safer. To that end I would be grateful if you could contribute to a short survey to understand how Thames Valley Police could improve their links with your council: <https://www.thamesvalley-pcc.gov.uk/local-council-survey/>.

As always please do feel free to contact me or my office if we can support your local council in our collective efforts to keep the public safe and I would be delighted to come and meet with you locally.

Yours sincerely,

Neighbourhood Policing engagement survey

Introduction from Matthew Barber (Police & Crime Commissioner for Thames Valley)

Communication with communities is vital; local councils are an important part of that. Although resources need to be focussed on cutting crime and catching criminals, reporting to communities is important.

Activity of Neighbourhood Policing teams is an operational matter for the Chief Constable, but I want to seek views in order to inform conversations with the Force to get the best, more efficient and effective way of reporting.
