The committee received the report from the Operations Manager regarding the replacement of play equipment at Burwell and King George's play areas.

In response to a question from a Member, the Head of Estates and Operations explained how RoSPA carry out the grading and associated risk of play equipment. He outlined the replacement

play equipment outlined in the report was well researched and it was replacing items that were over 10 years old and well used.

Members discussed a previous resolution to replace all equipment in play areas at the same time, but a pressing need had been presented before them and equipment degraded over varying times. With regard to the replacement of the Burwell play area Cable Way; it was agreed that as this was a very well used piece of equipment it should be repaired. Some members were initially hesitant in replacing the Multiplay apparatus at King George's Field however, following discussions it was agreed to proceed with this replacement in order to ensure that the play parks remain useable and safe for children.

A proposal was made by Councillor Smith, Seconded by Councillor Aitman to proceed with all the recommendations in the report. A vote was taken and there was unanimous agreement.

Recommended:

1. That, the report be noted and,
2. That, the council continues with periodic replacement of play equipment when required and,

PR453 SKATE PARK REFURBISHMENT UPDATE

The Committee received the report and verbal update from the Head of Estates & Operations (HE&O) providing an update on the Skatepark refurbishment.

Members were pleased to hear that the contract had been awarded to Bendcrete Skateparks and that final consultation will now take place with skatepark users to consult on any final small amendments. Members heard from the HE&O that Bendcrete would be advertising this final consultation via school and notices at the park so that they can gain the feedback face to face, which they find is the most effective way.

A Member raised questions regarding the access to the refurbished skatepark for disabled users and what action was to be taken in relation to the promotion of safety equipment. The HE&O advised that provision was in place to ensure all user have access and that promotion of safety equipment would be encouraged but is not mandatory.

Resolved:

That, the report and verbal update be noted.

PR454 RECREATION GROUND SIGNAGE

The Committee received the report of the Operation Manager regarding the installation of signage at the council's recreation Grounds.

Members raised several questions which the Head of Estates & Operations was able to answer to confirm that signage was a legal requirement to inform users of the grounds of specific prohibitive activities. Members were keen to ensure that the signs were minimal, clear, welcoming, and as positive as possible. Using wording such as “respect and responsible” rather than “no”.

Members discussed the size of the signs, a vote was taken 5 votes for Option A and 2 votes for Option B. Therefore, a A2 sized sign was chosen.

Members were pleased to hear that the installation of the new boiler at Burwell Hall would soon be completed.
