Witney OX28 1NB.

Dear Sirs,

Re: Walkway path alongside St. Mary's Church.

I write to bring your attention to the above, which is currently causing some difficulty to residents here at Fernleigh. There are over 30 residents here using mobility scooters and 3 using electric wheelchairs.

The route to Witney centre, doctors, dentists etc, is for us via the above walkway, the surface of which is proving very jolting and awkward to negotiate.

This jolting (excessive) causes some scooter connections to become loose and badly for a technician to exist, we incur a £100 call out charge each time.

In these circumstances, I write to request your kind and URGENT attention to re-surfacing this vital route for all of us.

I also attach a list of further signatories to this letter, who have wished to join me in this request.

Thank you for your kind attention
Yours faithfully

S G
