Subject: Litter in graveyard

Witney town council need to do more to stop the groups of young adults littering all over Tower Hill cemetery. Every week I am up there picking up the aftermath of them congregating on logs provided by the council. This is is not a place for people to have party's. More bins need to be provided next to the logs and cctv needs to be installed to catch the degenerates who frequently leave their rubbish all over the place week in week out. The logs are not used by adults visiting the graveyard. So remove them before I do. Why should it be up to me to collect the rubbish weekly? Why should people have to visit their buried loved ones whilst stepping over cans of coke and drug bags? Something has to give. The police are too busy to deal with it. It's your graveyard please sort it out.
