

Local Flood Risk Management Strategy consultation

Let's Talk Oxfordshire

Local flood risk management strategy survey

We'd like to hear what you think about our draft Local Flood Risk Management Strategy, and what we propose to do over the next 5 years. We would like to hear from local residents, businesses, and our partners and other stakeholders. Your feedback is important to us and will help us to identify if changes are needed on the draft objectives and action plan.

Which of the following best describes how you wish to respond to this survey? (please select one answer)

(Choose any 1 options)

- As a resident of Oxfordshire
- As an Oxfordshire County Council employee
- An Oxfordshire parish, town, district, or county councillor in an official capacity
- A local authority
- A business
- On behalf of a charity, voluntary or community sector organisation (VCS)
- As a representative of a local community group or residents' association
- Other (please specify)

Answer this question only if you have chosen A business for Which of the following best describes how you wish to respond to this survey? (please select one answer)

Please give the name of the business you represent and your role

Answer this question only if you have chosen On behalf of a charity, voluntary or community sector organisation (VCS) for Which of the following best describes how you wish to respond to this survey? (please select one answer)

Please give the name of the charity, voluntary or community sector organisation (VCS) you represent and your role

Answer this question only if you have chosen An Oxfordshire parish, town, district, or county councillor in an official capacity for Which of the following best describes how you wish to respond to this survey? (please select one answer)

Please indicate to what extent you agree or disagree that it is clear in [the Strategy](#) which Risk Management Authorities are responsible for managing which sources of flooding?

(Choose any one option)

- Strongly agree
- Agree
- Neither agree nor disagree
- Disagree
- Strongly disagree

[The Strategy](#) sets out objectives for managing local flood risk. Please indicate how strongly you agree or disagree with each of the following objectives?

(If all answer options are not displayed, please use the scroll bar)

Questions	Definitely agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Definitely disagree
Objective 1: Improve understanding of flood risks and ensure that all stakeholders understand their roles and responsibilities for flood risk management.					
Objective 2: Take a collaborative approach to reducing flood risks, using all available resources and funds in an integrated way and in so doing manage and reduce overall flood risk.					
Objective 3: Take a sustainable and holistic approach to flood risk management, seeking to deliver wider environmental and social benefits, climate change mitigation and improvements under the Water Framework Directive.					
Objective 4: Prevent an increase in flood risk from development where possible, by preventing additional flow entering existing drainage systems and watercourses.					
Objective 5: Seek opportunities to communicate to people the potential impacts of flooding and how they can reduce the impact.					

[The Strategy](#) sets out the measures and actions we propose to take to meet the objectives set out (see Section 6). Please indicate how strongly you agree or disagree that the measures and actions are appropriate for each objective?

Questions	Definitely agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Definitely disagree
Measures and actions for Objective 1					
Measures and actions for Objective 2					
Measures and actions for Objective 3					
Measures and actions for Objective 4					
Measures and actions for Objective 5					

Are there any other actions/measures that you think should be included? If so, please explain what they are and why they should be included? Please say who should be responsible for these measures.

Flood risk can be managed in a number of different ways, these can include flood warning and resilience, maintenance of assets, managing flood risk from development and building flood defences.

Please indicate to what extent you agree or disagree that the Strategy balances these different types of management approaches?

(Choose any one option)

- Strongly agree
- Agree
- Neither agree or disagree
- Disagree
- Strongly disagree

Answer this question only if you have chosen Disagree for Flood risk can be managed in a number of different ways, these can include flood warning and resilience, maintenance of assets, managing flood risk from development and building flood defences. Please indicate to what extent you agree or disagree that the Strategy balances these different types of management approaches?

If you disagree with the balance of the different types of management approaches, what do you think needs to be focused on more within the strategy? Please tick the management approaches listed below you feel need to be focused on more within the strategy.

(Choose all that apply)

- Flood warning
- Flood resilience
- Maintenance of assets
- Managing flood risk from developments
- Building flood defences
- Other (please specify)

Answer this question only if you have chosen Strongly disagree for Flood risk can be managed in a number of different ways, these can include flood warning and resilience, maintenance of assets, managing flood risk from development and building flood defences. Please indicate to what extent you agree or disagree that the Strategy balances these different types of management approaches?

If you disagree with the balance of the different types of management approaches, what do you think needs to be focused on more within the strategy? Please tick the management approaches listed below you feel need to be focused on more within the strategy.

(Choose all that apply)

- Flood warning
- Flood resilience
- Maintenance of assets
- Managing flood risk from developments
- Building flood defences
