**Subject:** SNN2024121 - Large Development - School Land West Witney

Good Morning All

**Re: SNN2024121 – Large Development – School Land West Witney**

I have received an application to address 74 new properties at School Land West Witney. Planning Application **23/01206/FUL**. Plan attached.

The plan is to allocate 2 new street names and 1 new building name to development and in addition add new property numbers onto existing streets “Centenary Way” & “Mott Close”. The developer has no street or building names suggestions to propose and request that the Town Council propose the names for the development.

*When discussing these new names, please note there is another development in West Witney which may also require 1 new street name and possibly 4 building names. (Planning Application 23/01203/RES – 39 Apartments and 4 Retail Units).*

Please can you advise your preferred street and building names in order of preference along with the reason for each chosen name. I will then check the names and forward your proposals to the developer. Please can you come back to me by Tuesday 8<sup>th</sup> October with any suggestions that the parish council would like to make.

Thank you for your assistance, however, should you require anything further please get in touch.

Kind regards

Tania Cole
