**Subject:** Splash Park

Hello.

We were at the the Leys on Saturday in 25°C heat and we were sad to find that the Splash Park wasn't working and the kids ended up playing in muddy puddles, which wasn't ideal.

As we start to feel the effects of climate change, it would be good if the splash park would continue to operate into October or at least a system to turn it back on for exceptionally hot days.

I hope you'll consider this at the next meeting.

Thanks.
