Subject: SNN2025088 - Large Development - Car Park rear of West Street/ Farmers Close

Good Morning All

Planning reference 23/02730/FUL

We have received an application to address a new development to the rear of West End, accessed via Farmers Close.

The development consists of ten new dwellings. Please see attached layout plan.

The plan is to allocate 1 new street names to the development. The developer has proposed one street name of “**Millstream**” (suffix to be agreed) and provided the following supporting information –

Millstream (Mews)

Heritage link: Refers to the historic mill streams that once powered local mills along the Windrush corridor.

Policy fit: Heritage and geography-based; easily pronounced; suffix open to discussion.

If you could kindly come back to me by Tuesday 11th November, with any comments or suggestions I can then pass onto the developer.

Thank you in advance of your assistance, however should you require anything further please contact me.

Kind regards

Tania Cole
