Subject: Hi

Hi,

I hope you don't mind me sending you an email with regards some concerns. If you could help or direct me in the right direction that would be great

I have just spent a few minutes directing traffic. to get a bus through at the top of burwell drive due to the school drops of parents parking opposite the bus stop

"Highway Code Rule 243, you should not park opposite a bus stop if it would cause an obstruction"

I have contacted the school on 3 occasions and have explained i have personally seen 2 near misses with kids trying to cross inbetween the cars there.

I have also spoken to a police officer who was as useful as a [REDACTED]

It would be great to get yellow lines there not that the parents abide by them as they park on the ones closest to the junction. But i lt would help.

I see you helped get a no right turn at Barnard gate so thought you may be the man to help.

but anyway this is a huge issue and the lovely driver of the bus who thanked me said it's always an ongoing problem.

Once again I hope you can help me or point me in the right directions

Thanks

[REDACTED]
