Subject: Parcking obstructing the highway

Good morning.

I am writing to you today in the hope that you can assist me or forward this matter to the appropriate department.

I live at (Redacted), and recently, new neighbours have begun parking on the grass verges outside our properties. This is significantly blocking my vision when exiting my property, which has already resulted in several near misses.

It is my understanding that if a verge is part of the public highway, parking there can lead to Penalty Charge Notices (PCNs) for obstructing the highway, causing damage, or violating council rules. Could you please confirm if this is the case for our location?

Furthermore, despite being asked to stop by a neighbour's son, these individuals are now mounting the curb outside (Redacted), and driving over the grass verges from (Redacted), and (Redacted), to reach the verges outside (Redacted), and (Redacted). This activity has caused deep ruts throughout the winter months, which children are now using for cycling and freestyling, creating an entirely new safety hazard.

To prevent a serious accident, would it be possible to have two posts placed on the grass verge to prevent vehicles from parking there? I have noted that there appear to be two spare posts currently located outside (Redacted)

Thank you for your time and assistance with this matter.

Best regards,

(Redacted)
