

1. This extract of the highway record plan is derived from a variety of sources of differing quality/accuracy, which to a large extent is inevitable given the piecemeal development of the highway. The colouring indicates the general boundaries of the highway (not an exact line), except where there is a roadside ditch the highway boundary is usually the roadside edge of the ditch.

2. It is presented on an Ordnance Survey base and such maps are drawn by them according to their prescribed practices. They are not topographic surveys and should not be considered as such. We may also hold historic background papers and are able to provide these, there may be an additional charge for these documents.

Footpath off Field Mere Close, Witney
