Dear John

**Re: 2021/22 Tree survey recommended works**

Following my recent visit to the various locations please find below my quotation for the work as recommended in the recent tree survey completed by Treework Environmental Practice.

**T106 Rowan** - Fell tree and systemically treat the remaining stump

**G2073 Various** - Remove growth & systemically treat stumps

**G764 Mature English Oak** (Root rot decay suspected - Meripilus)

Section fell tree, grind out the remaining stump to a maximum depth of 25cm and remove excess grindings

**T707 Grey Sallow** - Fell multiple stems, systemically treat the remaining stumps

**T728 Goat Willow** - Crown lift to 3 metres high, prune overhang from property to within border.

**G732 Malus sp.** - Remove suspended broken branch

**G747 Cockspur Thorn** - Crown lift over footpath to 3 metres high and prune 0.5 clearance over fencing.

**T700 Dogwood** - Crown lift or prune lower branches over footpath.

**G784 Elm/Elder** - Fell dead trees.

**T792 Mature Ash**

Section fell tree, grind out the remaining stump to a maximum depth of 25cm and remove excess grindings

**T800 Small Leaved Lime** - Pollard to previous pollard heads @ 6 metres high retaining stem growth

**T808 Prunus cerasifera stump** - Remove growth & treat stump

**T571 Box Elder**

Reduce southernmost leader (regrowth) by up to 3 metres where it trifurcates to reduce load

**T577 Black Pine** - Remove lowest declining branch to east overhanging neighbouring property

**T479 Sycamore** - Remove dead lower branches to south of crown.
