LOVE PARKS WEEK

RESPECT PARKS

LOVE PARKS

This year, our parks and green spaces have been a vital lifeline to many of us during the lockdowns.

Around 9 in 10 people surveyed by Natural England in May 2020 agreed that natural spaces are good for mental health and wellbeing.

And yet, our green spaces have been under immense pressure, with local authorities telling us they collected, on average, an extra 57 tonnes of litter during the first lockdown alone.

As we head into summer, our annual Love Parks Week provides a moment to send a rallying cry; to Love, Respect, and Protect our parks throughout the summer of 2021 and beyond.

## HOW CAN YOU GET INVOLVED?

### MEMBERS OF THE PUBLIC

#### Love Parks

Many local authorities are putting on events in parks in celebration of the week. Find out what's happening near you by checking out the hashtag [#LoveParks](#) on social media, or contacting your local park.

#### Protect parks

This Love Parks Week, we call on the government to address the urgent issues affecting our green spaces, including funding, access, climate change and biodiversity.

We know that to protect parks, a policy is needed at the highest level. And so, in 2020, Keep Britain Tidy established our Parks and Green spaces All-Party Parliamentary Group (APPG), consisting of MPs who care passionately about parks and green spaces and will advocate for them.

The more members we have signed up to the Parks APPG, the more we can hold the government accountable and influence this agenda.

Help us protect parks and [write to your MP](#) to ask them to join our Parks and Green spaces APPG.

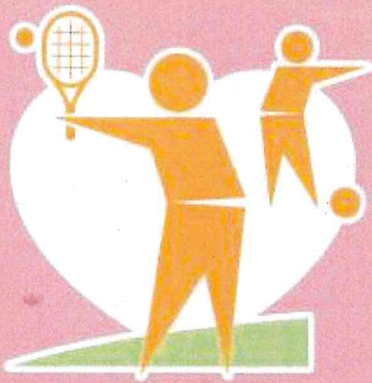

#### Respect parks

We've developed a simple code to explain how visitors can respect their local park.
