

**Amounts for Bowls Green Irrigation charges previously agreed by council.**

The Operations and Estates Officer wrote to all three clubs stating that I was looking at charging an additional sum of £550 on the current bowls greens annual hire fees payable to Witney Town Council the two clubs at West Witney cost would be split £225 for each club and the Leys Club the full £550, this would cover the annual maintenance charges for each green of £420 as quoted by SJS contractors with an additional sum of £130 for additional works required to bring the system up to its full working potential and maintain it there. This money would be held by Witney Town Council if not used towards any works required to bring the system up to working at its full potential and maintaining it there on going. Should works required cost more than the available sum council will fund the works and reclaim the sums from this charge over time. If at any point, there are remaining sums these will be held to be used when required for future repairs/improvements or replacement of the system or part thereof.
