

Madley Park Residents Association - Parking Issues

I'm writing to you as secretary of the Madley Park Residents Association about concerns raised by some residents on the dangers of the parking at both ends of Harvest Way. Particularly at the Jubilee Way end there is usually a long line of parked cars causing a blind spot for drivers leaving the estate. It has also been flagged up as a danger to school children crossing along there on their way to school. Is there any way in which parking would still be allowed but in such a way as not to be dangerous?

The other place we are highlighting is Northfield Farm Lane, along the back of the Co-op nursery, where I live. At school drop off times parents are parking right along to and sometimes slightly beyond the corner, meaning there is poor visibility for traffic coming round the corner. Having watched this several times, I'm concerned that an accident will occur, and I have written to the school asking them if they could request that parents use the Co-op car park.

The other problem we think this is causing is to do with our bin collection, since the line of cars blocks off the waiting bins. The last two grey bin collections have been missed, even though the collections were made further on in Woodbank, suggesting that they couldn't stop safely to collect ours.

If you could look into this and see what might be done, we'd be very grateful.

Many thanks
